Fluid for water pipe stones and dry tobacco soaking

60ml of liquid is enough to soak 70g **The Blum Rocx** stones twice

THE WORLD IS FULL OF AROMAS

PRODUCT INFORMATION

The Blum on the ROCK is a range of steam stones for hookahs. It is a great substitute for water pipes tobacco. Stones for shishas ROCKX are porous structure pebbles soaked in liquid (Rock fluid) which is a mixture of glycerine and flavour aromas. Thanks to that special structure of stones, fluid evaporate during the heating, ROCKX stones do not burn out like tobacco products and in the result do not cause tar production. The use of ROCKX stones gives the effect of smoke but it, in reality, it is a just the delusion of smoking. Under the influence of temperature, the glycerine-based liquid is gradually releasing, as a result, create the steam. The ROCKX stones have a fairly large surface so they allow for the creation of a dense and tasty cloud. It is a nicotine-free product.

HOW TO USE

The use of The Blum on the ROCK steam stones is in the same way as the application of traditional water pipe tobacco. Before use, we recommend shaking a jar for few seconds to cover the surface of the stones with the liquid(fluid) as much as possible.

- fill the hookah bowl with ROCKX steam stones.
- cover it precisely with foil for hookahs.
- make small holes in the aluminum foil.
- put on it incandescent charcoals (minimum 2-3 pieces).

REUSABLE PRODUCT

The Blum on the ROCK steam stones is a reusable product. After use, you can boil them or make them a bath in hot water. After drying ROCKX stones could be used again. Just fill them with one of our The Blum on the ROCK Steam Fluid to keep the pleasure of shisha vaping.
